Develop. Design. Deploy. Disrupt

QUOTATION

Azad Chowk, Sadar Nagpur - 440001

Email: devronic.org@gmail.com | Web: www.devronic.com

Prepared For: Mr. Rajas Savdekar	Date: June 28, 2026
Industry: Suppliers of Packaging Materials	Validity: 15 Days from Issue
Project Name: Saferspack	

Project Overview

Development of a professional, responsive business website for SafersPack, designed to establish a strong online presence and showcase the company's products/services. The project includes complete website design & development, domain registration, hosting setup, and deployment. The website will be optimized for desktop, tablet, and mobile devices to ensure a seamless user experience.

Scope of Work & Deliverables

1. Core Website Architecture (5–7 Pages Total)

- Home Page: Professionally designed landing page showcasing SafersPack's brand identity, key services, business highlights, and call-to-action sections.
- About Us: Dedicated company profile presenting the organization's vision, mission, expertise, and commitment to quality packaging solutions.
- Products & Services: Structured sections highlighting the company's packaging products and services with descriptive content and professional presentation.
- Why Choose Us: Informative section emphasizing SafersPack's strengths, industry experience, service quality, and customer-focused approach.
- Contact Page: Integrated contact information, enquiry form, Google Maps location, and multiple communication channels for customer inquiries.
- Additional Content Sections: Development of any additional informational sections requested by the client within the agreed project scope.

2. Functionality & Integration

- Responsive Website Development: Fully responsive website optimized for desktop, tablet, and mobile devices to provide a seamless browsing experience.
- Contact & Lead Generation: Integrated enquiry form allowing prospective customers to easily connect with the company for product or service inquiries.
- Google Maps Integration: Interactive business location embedded for easy customer navigation.
- Social Media Integration: Integration of official social media platforms for improved customer engagement and brand visibility.
- Call-to-Action Sections: Strategically placed contact and enquiry buttons to maximize customer conversions.
- Performance Optimization: Basic website optimization for faster loading speed, improved user experience, and search engine friendliness.
- Security Configuration: SSL certificate installation and secure deployment to ensure safe browsing.
- 3. Domain, Hosting & Deployment

3. Domain, Hosting & Deployment

- Domain Registration: Provision and configuration of one business domain (1-Year validity).
- Web Hosting: Hosting setup and server configuration with production deployment.
- SSL Installation: Secure HTTPS configuration for encrypted communication.
- Live Deployment: Complete website deployment, testing, and DNS configuration before project handover.

Commercials & Financial Investment

- Item Description: End-to-End Business Website Development for SafersPack, including Custom UI/UX Design, Responsive Frontend Development, Essential Business Pages, Contact & Lead Generation Features, Domain Registration, Web Hosting Provisioning, SSL Configuration, Website Deployment, and Production Server Setup.
